GENERALSERVICESADMINISTRATION

Federal Supply Service
Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA *Advantage!*[®], a menu-driven database system.

The INTERNET address GSA *Advantage!*[®] is: GSAAdvantage.gov.

Schedule Title: General Purpose Commercial Information Technology Equipment, Software and Services

FSC Group: **MULTIPLE AWARD SCHEDULE**

FSC Classed Product codes and Service Codes:

FPDS Code D302	IT Systems Development Services
FPDS Code D306	IT Systems Analysis Services
FPDS Code D307	Automated Information Systems Design and Integration Services
FPDS Code D308	Programming Services
FPDS Code D311	IT Data Conversion Services
FPDS Code D399	Other Information Technology Services, Not Elsewhere Classified
FPDS Code D304	Value Added Network Services (VANs)
FPDS Code D304	E-Mail Services
FPDS Code D304	Internet Access Services
FPDS Code D304	Navigation Services
FPDS Code D399	Other Data Transmission Services, Not Elsewhere Classified - Except "Voice" and Pager Services

Electronic Commerce NAICS 541519 and FSC/PSC Class D399 IT AND TELECOM- OTHER IT AND TELECOMMUNICATIONS -Other Data Transmission Services, Not elsewhere classified

Information Technology Professional Services NAICS 541519 and FSC/PSC Class D399 - Other Information Technology Services, Not Elsewhere Classified

Contract number: [GS-35F-0794M](#)

For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov.

Contract period: September 17, 2012 through February 16, 2022

Current through Mod A812, March 27, 2020

August Schell Enterprises
51 Monroe Street, Suite 1802, Rockville, MD 20850
Tel: (301) 838-9470 Fax: (301) 838-9471

www.augustschell.com

Business size: Small business.

CUSTOMER INFORMATION:

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded prices:

SIN 54151S - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES: See price list.

SIN 54151ECOM - ELECTRONIC COMMERCE (EC) SERVICES: See price list.

SIN OLM - Order-Level Materials are supplies and/or services acquired in direct support of individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. OLMs are Purchased under the authority of the FSS Program, Unknown until an order is placed, Only authorized for use in direct support of another awarded SIN, Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN), OLMs are not open-market items, OLMs are not awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level), The Order-Level Materials SIN is only authorized for use in direct support of another awarded SIN, Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA, Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract:

SIN 54151S: Analyst for \$54.01.

SIN 54151ECOM: Red Hat item MCT0697 for \$5.54.

SIN OLM – See above.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided – See price list.

2. Maximum order: \$500,000 for 54151S and 54151ECOM. For OLM's, the cumulative value of OLMs in an individual task or delivery order cannot exceed 33.33% of the total value of the order.

3. Minimum order: \$100.00

4. Geographic coverage (delivery area): The geographic scope of this contract is the 48 contiguous states, the District of Columbia, Alaska, Hawaii, the Commonwealth of Puerto Rico, and authorized GSA Schedule users located outside the continental U.S.

5. Point of production: Rockville, Montgomery County, Maryland.

6. Discount from list prices or statement of net price: Prices shown are NET Prices; Basic Discounts have been deducted.

7. Quantity discounts: All prices are Net. SIN 54151S An additional discount of 24% is proposed to GSA when a \$5M annual volume contract is guaranteed by an ordering agency. For SIN 54151ECOM, an additional discount of 23% is proposed to GSA when a \$750,000 annual volume contract is guaranteed by an ordering agency.

8. Prompt payment terms: Prices are net 30 days from receipt of invoice or date of acceptance, whichever is later.

9. **Foreign items:** Not applicable.

10a. **Time of delivery.**

Delivery After Receipt of Order

All SINs - As negotiated between the Government and August Schell Enterprises.

10b. **Expedited Delivery:** Can be arranged on a case-by-case basis for an additional fee. Customers should call for pricing and product availability.

10c. **Overnight and 2-day delivery:** Can be arranged on a case-by-case basis for an additional fee. Customers should call for pricing and product availability.

10d. **Urgent Requirements:** Can be arranged on a case-by-case basis for an additional fee. Customers should call for pricing and product availability.

11. **F.O.B:** Destination.

12a. **Ordering address:**

August Schell Enterprises
51 Monroe Street, Suite 1802
Rockville, MD 20850

12b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. **Payment address:**

August Schell Enterprises
51 Monroe Street, Suite 1802
Rockville, MD 20850

14. **Warranty provision:** Workmanlike manner for 54151S and 30 Days for 54151ECOM.

15. **Export packing charges:** Not applicable.

16. **Terms and conditions of rental, maintenance, and repair:** Not applicable.

17. **Terms and conditions of installation:** Not applicable.

18a. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices:** Not applicable.

18b. **Terms and conditions for any other services:** Not applicable.

19. **List of service and distribution points:** Not applicable.

20. List of participating dealers:

B7 Inc, LLC
51 Monroe Street
Suite 805
Rockville, MD 20850
301-509-3301

Carahsoft Technology Corporation
1860 Michael Faraday Drive
Suite #100
Reston, VA 20190

ProTegus
21351 Gentry Drive
Suite 270
Sterling, VA 20166

21. Preventive maintenance – Not Applicable.

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants).

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.)

The EIT standards can be found at: www.Section508.gov/.

Red Hat - <https://access.redhat.com/articles/2918071>

23. Data Universal Number System (DUNS) number: 877238592.

24. Notification regarding registration in the System for Award Management (SAM.gov) database: Yes.

DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

SENIOR TECHNICAL CONTRACTOR- ENTERPRISE SOLUTIONS:

Minimum Experience: Six (6) years of technology specific consultative expertise. Technology specific certifications or progress toward certifications are required.

Minimum Education: Bachelor's Degree or an associate degree with an additional (3) years of technology specific experience, or technology specific Subject Matter Expert certifications with an additional (3) years of technology specific experience.

Functional Duties: Acts independently on the most specialized phases of system design, implementation, analysis and programming. Leads and participates in major system studies and implementations. Investigates leading edge information technologies and applies it to the client environment. Functions as the technical expert during product presentations to clients. Possesses industry-leading expertise in a technology area such as networking, electronic business or software applications. High-end expertise in leading edge technology. Able to provide consultative technical support at the very highest levels of the enterprise.

SENIOR CONTRACTOR –ENTERPRISE SOLUTIONS:

Minimum Experience: Four (4) years of technology specific consultative expertise. Able to work with other senior technical and user staff to complete projects.

Minimum Education: Bachelor's Degree or an associate degree with an additional (3) years of technology specific experience, or technology specific Subject Matter Expert certifications with an additional (3) years of technology specific experience.

Functional Duties: Able to plan, design, configure, develop, modify, test and install enterprise. Able to translate systems/subsystems designs and detailed designs into operational systems. Able to provide advice and resolve issues regarding application designs, technical architectures, software interfaces, data conversion, testing, operations and user support. High-end expertise in leading edge technology. Able to provide assistance and guidance to less experienced technical staff.

CONTRACTOR –ENTERPRISE SOLUTIONS:

Minimum Experience: Two (2) years of technology specific consultative expertise. Able to work with other senior technical and user staff to complete projects.

Minimum Education: Bachelor's Degree or an associate degree with an additional (3) years of technology specific experience, or technology specific Subject Matter Expert certifications with an additional (3) years of technology specific experience.

Functional Duties: Possesses industry-leading expertise in a technology area such as networking, electronic business or software applications. High-end expertise in leading edge technology. Able to provide consultative technical support at the very highest levels of the enterprise.

SENIOR PROGRAM MANAGER:

Minimum Experience: Fifteen (15) years of experience to include ten (10) years of program management experience. Must have project development experience from inception to deployment, expertise in the management and control of funds and resources using complex reporting mechanisms, demonstrated capability in managing multi-task contracts and/or subcontracts of various types and complexity. General experience includes increasing responsibilities in information systems design and/or management.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Program Management experience, or PMP Certifications with an additional four (4) years of Program Management experience.

Functional Duties: Project lead or project manager for a large, complex task order (or a group of task orders affecting the same common/standard/migration system) and shall assist the officer working with the Government Contracting Officer (CO), the contract-level Contracting Officer's Representative (COR), the task order-level (COR(s), government management personnel and customer agency representatives. Under the guidance of the Program Manager, responsible for the overall management of the specific task order(s) and ensuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise-wide horizontal integration planning and interfaces to other functional systems.

PROGRAM MANAGER:

Minimum Experience: Twelve (12) years of experience to include seven (7) years of program management experience. Must have project development experience from inception to deployment, expertise in the management and control of funds and resources using complex reporting mechanisms, demonstrated capability in managing multi-task contracts and/or subcontracts of various types and complexity. General experience includes increasing responsibilities in information systems design and/or management.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Program Management experience, or PMP Certifications with an additional four (4) years of Program Management experience.

Functional Duties: Project lead or project manager for a large, complex task order (or a group of task orders affecting the same common/standard/migration system) and shall assist the officer working with the Government Contracting Officer (CO), the contract-level Contracting Officer's Representative (COR), the task order-level (COR(s), government management personnel and customer agency representatives. Under the guidance of the Program Manager, responsible for the overall management the specific task order(s) and ensuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise wide horizontal integration planning and interfaces to other functional systems.

PRINCIPAL SENIOR ADVISOR

Minimum Experience: Twelve (12) years of experience in managing the implementation of information engineering projects and experience in systems analysis, design and programming to include eight (8) years of experience in information systems development, functional and data requirement analysis, systems analysis and design, programming, program design and documentation preparation.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Principal Advisor experience, or an additional five (5) years of Principal Senior Advisor experience.

Functional Duties: Must be capable of applying enterprise-wide set of disciplines for planning, analysis, design and construction of information systems on an enterprise-wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Must be capable of performing enterprise-wide strategic systems planning, information planning, business and analysis. Performs process and data modeling in support of the planning and analysis efforts using both manual and automated tools: such as Integrated or Web/Internet CASE tools. Must be able to apply reverse engineering and reengineering disciplines to develop migration strategic and planning documents. Provides technical guidance in software engineering techniques and automated support tools.

PRINCIPAL ANALYST

Minimum Experience: Ten (10) years of experience years of experience in managing the implementation of information engineering projects and experience in systems analysis, design and programming using modern technologies to include five (5) years of experience including demonstrated experience with system architecture and/or programming languages such as Java, C/C++, HTML5/6, CSS and third/fourth generation languages in the design and implementation of systems and using three-tier architecture and modern database management systems. Responsibilities in software engineering activities and strong knowledge of applicable standards.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Analyst experience, or an additional five (5) years of Principal Analyst experience.

Functional Duties: Must be capable of applying enterprise-wide set of disciplines for planning, analysis, design and construction of information systems on an enterprise-wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Must be capable of performing enterprise-wide strategic systems planning, information planning, business and analysis. Performs process and data modeling in support of the planning and analysis efforts using both manual and automated tools such as Integrated or Web/Internet based CASE tools. Must be able to apply reverse engineering and reengineering disciplines to develop migration strategic and planning documents. Provides technical guidance in software engineering techniques and automated support tools.

INFORMATION ANALYST

Minimum Experience: Five (5) years of experience in developing, designing and implementation of information engineering projects to include three (3) years of experience of specialized experience including: demonstrated experience working with system architect Java, C/C++, HTML5/6, CSS and third/fourth generation languages in the design and implementation of systems and using three-tier architecture and modern database management systems. Responsibilities in software engineering activities and strong knowledge of applicable standards.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Analyst experience, or an additional five (5) years of Information Analyst experience.

Functional Duties: Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

COMPUTER SPECIALIST

Minimum Experience: Two (2) years of experience in developing, designing and implementation of information engineering projects to include one (1) year of experience of experience including demonstrated experience working with Java, C/C++, HTML5/6, CSS and third/fourth generation languages in the design and implementation of systems and using client/server, web/internet or mainframe database management systems.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Computer Specialist experience, or an additional five (5) years of Computer Specialist experience.

Functional Duties: Analyzes functional business applications and design specifications for functional activities. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including both program-level and user-level documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to programmers to ensure program deadlines are met.

SENIOR DATABASE ADMINISTRATOR

Minimum Experience: Seven (7) years of experience in the development and maintenance of database systems to include five (5) years of experience with database management systems, system design and analysis, logical and physical database design, tuning and optimizing, operating systems software, and internal and data manipulation languages

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Database Administrator experience, or an additional five (5) years of Senior Database Administrator experience.

Functional Duties: Must be capable of managing the development of database projects and be able to plan, budget staff and data resources. Supports application developers in planning preparation, load analysis, and backup and recovery of data. When necessary, reallocates resources to maximize benefits. Incumbent must be able to prepare and deliver presentations on database management systems (DBMS) concepts. Provides daily supervision and direction to support staff. Monitors performance and evaluates areas to improve efficiency.

DATABASE ADMINISTRATOR

Minimum Experience: Six (6) years of experience in DBMS systems analysis and programming to include three (3) years of experience in using current DBMS technologies, application design utilizing various database management systems and experience with DBMS internals, logical and physical database design, tuning and optimizing.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Database Administrator experience, or an additional six (6) years of Database Administrator experience.

Functional Duties: Must be capable of providing highly technical expertise and support in the use of DBMS. Must be able to evaluate and recommend available DBMS products to support validated user requirements. Defines file organization, indexing methods, and security procedures for specific user applications. Develops, implements and maintains database back-up and recovery procedures for the processing environments and ensures data integrity, security and recoverability are built into the DBMS applications.

JUNIOR DATABASEADMINISTRATOR

Minimum Experience: Three (3) years of experience in DBMS systems analysis and programming to include one (1) year of experience in using current DBMS technologies, application design utilizing various database management systems and experience with DBMS internals, tuning and optimizing.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Junior Database Administrator experience, or an additional five (5) years of Database Administrator experience.

Functional Duties: Must be capable of providing highly technical expertise and support in the use of DBMS. Must be able to evaluate and recommend available DBMS products to support validated user requirements. Defines file organization, indexing methods, and security procedures for specific user applications. Develops, implements and maintains database back-up and recovery procedures for the processing environments and ensures data integrity, security and recoverability are built into the DBMS applications.

SENIOR DATA ANALYST

Minimum Experience: Seven (7) years of experience to include four (4) years of specialized experience as a Business Analyst or Functional Analyst or Requirements Analyst, Data or Computer Systems Analyst. Specialized experience includes superior functional knowledge of task order specific requirements, or developing functional requirements for complex integrated IT systems and the various modules. Demonstrate ability to work independently or general direction.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Data Analyst experience, or an additional five (5) years of Senior Data Analyst experience.

Functional Duties: Manage and analyze user needs, determine functional and cross-functional requirements. Perform functional allocation to identify required tasks and their interrelationships. Identify resources required for each task. Provide supervision and direction to support staff.

MANAGEMENT ANALYST

Minimum Experience: Five (5) years of general IT experience to include three (3) years of experience specialized as a Business Analyst or Functional Analyst or Requirements Analyst, Data or Computer Systems Analyst. Specialized experience includes functional knowledge of task order specific requirements, or developing functional requirements for complex integrated IT systems and the various modules. Demonstrate ability to work independently or general direction.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Analyst experience, or an additional five (5) years of Management Analyst experience.

Functional Duties: Manage and Analyze user needs, determine functional and cross-functional requirements. Perform functional allocation to identify required tasks and their interrelationships. Identify resources required for each task. Provide supervision and direction to support staff.

SYSTEMS ANALYST

Minimum Experience: Two (2) years of general IT experience to include one (1) year of experience as a Business Analyst or Functional Analyst or Requirements Analyst, Data or Computer Systems Analyst with specialization in superior functional knowledge of task order specific requirements, or developing functional requirements for complex integrated IT systems and the various modules. Demonstrate ability to work independently or general direction.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Systems Analyst experience, or an additional six (6) years of Systems Analyst experience.

Functional Duties: Manage and Analyze user needs, determine functional and cross-functional requirements. Perform functional allocation to identify required tasks and their interrelationships. Identify resources required for each task. Provide supervision and direction to support staff.

APPLICATION PROGRAMMER

Minimum Experience: Seven (7) years of experience in managing, designing, developing and implementation of information engineering projects and experience in systems analysis, design and programming using CASE and IE tools and methods to include (5) years of experience specialized experience includes: demonstrated experience working, system architect with Java, C/C++, HTML5/6, CSS and third/fourth generation languages in the design and implementation of systems and using client/server, web/internet or mainframe database management systems. General experience includes increasing responsibilities in software engineering activities and strong knowledge of applicable standards.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Application Programmer experience, or an additional six (6) years of Application Programmer experience.

Functional Duties: Must be capable of applying enterprise-wide set of disciplines for planning, analysis, design and construction of information systems on an enterprise –wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Must be capable of performing enterprise-wide strategic systems planning, information planning, business and analysis. Performs process and data modeling in support of the planning and analysis efforts using both manual and automated tools: such as Integrated or Web/Internet based CASE tools. Must be able to apply reverse engineering and reengineering disciplines to develop migration strategic and planning documents. Provides technical guidance in software engineering techniques and automated support tools.

JR. APPLICATION PROGRAMMER

Minimum Experience: Seven (7) years of experience in managing, designing, developing and implementation of information engineering projects and experience in systems analysis, design and programming using CASE and IE tools and methods to include (5) years of experience specialized experience includes: demonstrated experience working, system architect with Java, C/C++, HTML5/6, CSS and third/fourth generation languages in the design and implementation of systems and using client/server, web/internet or mainframe database management systems. General experience includes increasing responsibilities in software engineering activities and strong knowledge of applicable standards.

Minimum Education: Bachelor's Degree or an associate degree with an additional three (3) years of Application Programmer experience, or an additional six (6) years of Application Programmer experience.

Functional Duties: Must be capable of applying enterprise-wide set of disciplines for planning, analysis, design and construction of information systems on an enterprise –wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Must be capable of performing enterprise-wide strategic systems planning, information planning, business and analysis. Performs process and data modeling in support of the planning and analysis efforts using both manual and automated tools: such as Integrated or Web/Internet based CASE tools. Must be able to apply reverse engineering and reengineering disciplines to develop migration strategic and planning documents. Provides technical guidance in software engineering techniques and automated support tools.

ANALYST

Minimum Experience: One (1) year of to include (6) months of experience as a Business Analyst or Functional Analyst or Requirements Analyst, Data or Computer Systems Analyst.

Minimum Education: Bachelor’s Degree or an associate degree with an additional three (3) years of Analyst experience, or an additional six (6) years of Analyst experience.

Functional Duties: Must be capable of applying enterprise-wide set of disciplines for planning, analysis, design and construction of information systems on an enterprise –wide basis or across a major sector of the enterprise. Develops analytical and computational techniques and methodology for problem solutions. Must be capable of performing enterprise-wide strategic systems planning, information planning, business and analysis. Performs process and data modeling in support of the planning and analysis efforts using both manual and automated tools: such as Integrated or Web/Internet based CASE tools. Must be able to apply reverse engineering and reengineering disciplines to develop migration strategic and planning documents. Provides technical guidance in software engineering techniques and automated support tools.

RESOURCE PLANNER

Minimum Experience: Two (2) years of experience in any IT area to include (1) year of specialized experience preparing technical documentation, which is to include researching for applicable Government and industry documentation standards. General experience includes technical writing and documentation experience pertaining to all aspects of ADP. Demonstrated ability to work independently or under only general direction. Affiliation with American Library Association desirable.

Minimum Education: Bachelor’s Degree or an associate degree with an additional three (3) years of Resource Planner experience, or an additional six (6) years of Resource Planner experience.

Functional Duties: Gathers, analyzes, and composes technical information. Conducts research and ensure the use of proper non-technical terminology. Translates technical information into clear, readable documents to be used by technical and non-technical personnel. Develops Library Management Systems using HTML, xml, Web Page design programs, Adobe PhotoShop and Adobe Illustrator. Extensive experience proofreading, editing professional literature via the library’s press releases, including local and national newsletters.
