

Splunk Professional Services & Integration Expertise

Unparalleled technical expertise supporting government mission success through data-driven operations.

Who We Are:

August Schell is a leading provider of advanced cybersecurity and data analytics solutions across the federal government. We deliver mission-aligned Splunk services that enable visibility, compliance, and rapid operational insight across IT, security, and cloud environments. Our cleared engineers hold top industry certifications and have implemented Splunk at scale for DoD, federal civilian, and intelligence customers.

Technical Expertise:

Certified Experts:

Splunk Core Certified Consultants, Splunk Enterprise Security (ES) Accredited and Certified Admins, Splunk Cloud Certified, Splunk Accredited Implementation and Architect Professionals, Security+

Mission Focused Capabilities:

Security Operations / SIEM & RBA Development, Compliance & Continuous Monitoring (CMMC, FedRAMP, DoD RMF), IT & Network Observability, Cloud & Hybrid Data Ingestion (AWS, Azure, GCC)

Toolchain Integration:

Cribl, UEBA, SOAR, Enterprise Security, ITSI, and custom app development

Contract Experience & Past Performance:

Proven Track Record in Government:

- ✓ Splunk delivery under major DoD and Civilian agency contracts (DISA, DHS, DOE etc.)
- ✓ Cleared engineers supporting classified and unclassified environments
- ✓ Successful cross-domain integrations and ATO support
- ✓ Prime and sub roles across multiple contract vehicles
